FAA Repair Station No. 9OAR440B

Revision: 15

Revision Date: February 28, 2020

Control Number	01
----------------	----

Assigned To	FAA ASI SEA FSDO
-------------	---------------------

Introduction

The purpose of this Component Capability List is to supplement our Repair Station Air Agency Certificate and specifically list the airframe components of which this repair station is authorized to perform maintenance.

This Capabilities list will be maintained in accordance with Soniq Aerospace LP (Soniq Aerospace) Repair Station Manual / Quality Control Manual Section 5.

Soniq Aerospace will make additions to this capability listing only when the proper housing, equipment, experienced personnel, training and technical data are obtained to support the overhaul function for the component to be added.

Before adding a new article or articles to this Capabilities List the Director will conduct a Capabilities Self Audit in accordance with RSM/QCM Section 5-2 to determine that the Capabilities does exist.

No units, subassemblies or parts thereof will be released for return to service until the basic part number of the article is listed on this capabilities list.
